APPENDIX A, STANDARD CONTRACT TERMS AND CONDITIONS
PART I

GENERAL INFORMATION FOR CONTRACTORS

I-1. Purpose. This request for proposals (RFP) provides interested contractors with sufficient information to enable them to prepare and submit proposals for consideration by the Pennsylvania Turnpike Commission (Commission) to satisfy a need for Contractor Services to Provide Insurance Consulting Services and Other Related Insurance Overview Services.

I-2. Issuing Office. This RFP is issued for the Commission by the Dennis L. Genevie, Director of Safety & Risk Management, Pennsylvania Turnpike Commission, P.O. Box 67676, Harrisburg, PA 17106-7676, 717-939-9551, ext. 6160, dgenevie@paturnpike.com. The Issuing Office is the sole point of contact in the Commission for this RFP.

I-3. Scope. This RFP contains instructions governing the proposals to be submitted and the material to be included therein; a description of the service to be provided; requirements which must be met to be eligible for consideration; general evaluation criteria; and other requirements to be met by each proposal.

I-4. Problem Statement. The Commission would require the Contractor to insure that its operations are insured (including through self-insurance) at all times in such amounts, subject to such exceptions and deductibles and against such risks, as are customary for similar organizations.

I-5. Type of Contract. It is proposed that if a contract is entered into as a result of this RFP, it will be a contract for services and will contain the Standard Contract Terms and Conditions shown in Appendix A. The Commission may in its sole discretion undertake negotiations with contractors whose proposals as to price and other factors show them to be qualified, responsible, and capable of performing the work.

I-6. Rejection of Proposals. The Commission reserves the right to reject any and all proposals received as a result of this request, or to negotiate separately with competing contractors.

I-7. Subcontracting. Any use of subcontractors by a contractor must be identified in the quote. During the contract period use of any subcontractors by the selected contractor, that were not previously identified in the quote, must be approved in writing by the Commission prior to any work being done.

A firm that responds to this solicitation as a prime may not be included as a designated sub Contractor to another firm that responds to the same solicitation. Multiple responses under any of the foregoing situations may cause the rejection of all responses of the firm or firms involved. This does not preclude a firm from being set forth as a designated sub Contractor to more than one prime Contractor responding to the project advertisement.

I-8. Incurring Costs. The Commission is not liable for any costs incurred by contractors prior to issuance of a contract.

I-9. Questions and Answers. There will be no pre-proposal conference. Written questions should be submitted to the Issuing Office at the mailing or emailing address indicated above to be received no later that March 10, 2006. All questions and written answers will be issued as an addendum to and become part of this RFP.
I-10. **Addenda to the RFP.** If it becomes necessary to revise any part of this RFP before the proposal response date, addenda will be issued to all contractors who received the original RFP or posted to the web site under the original RFP document.

The Commission may revise a published advertisement. If the Commission revises a published advertisement less than ten days before the RFP due date, the due date will be extended to maintain the minimum ten-day advertisement duration if the revision alters the project scope or selection criteria. Firms are responsible to monitor advertisements/addenda to assure the submitted proposal complies with any changes in the published advertisement.

I-11. **Response.** To be considered, proposals must be delivered to the Pennsylvania Turnpike Commission’s **Contract Administration Department, Attention George Hatalowich,** on or before **12:00 Noon,** April 3, 2006. The Pennsylvania Turnpike Commission is located at 700 South Eisenhower Blvd., Middletown, PA 17057. Please note that use of U.S. Mail delivery does not guarantee delivery to this address by the above-listed time for submission. Proposers mailing proposals should allow sufficient delivery time to ensure timely receipt of their proposals. If the Commission office location to which proposals are to be delivered is closed on the proposal response date, due to inclement weather, natural disaster, or any other cause, the deadline for submission shall be automatically extended until the next Commission business day on which the office is open. Unless the contractors are otherwise notified by the Commission, the time for submission of proposals shall remain the same.

I-12. **Proposals.** To be considered, contractors should submit a complete response to this RFP, using the format provided in PART II. Each proposal should be submitted in six (6) copies to the Contract Administration Department. No other distribution of proposals will be made by the contractor. Each proposal page should be numbered for ease of reference. Proposals must be signed by an official authorized to bind the contractor to its provisions and include the contractor’s Federal Identification Number. For this RFP, the proposal must remain valid for at least 60 days. Moreover, the contents of the proposal of the selected contractor will become contractual obligations if a contract is entered into.

Each and every contractor submitting a proposal specifically waives any right to withdraw or modify it, except as hereinafter provided. Proposals may be withdrawn by written or telefax notice received at the Commission’s address for proposal delivery prior to the exact hour and date specified for proposal receipt. However, if the contractor chooses to attempt to provide such written notice by telefax transmission, the Commission shall not be responsible or liable for errors in telefax transmission. A proposal may also be withdrawn in person by a contractor or its authorized representative, provided its identity is made known and it signs a receipt for the proposal, but only if the withdrawal is made prior to the exact hour and date set for proposal receipt. A proposal may only be modified by the submission of a new sealed proposal or submission of a sealed modification which complies with the requirements of this RFP.

I-13. **Economy of Preparation.** Proposals should be prepared simply and economically, providing a straightforward, concise description of the contractor’s ability to meet the requirements of the RFP.

I-14. **Discussions for Clarification.** Contractors who submit proposals may be required to make an oral or written clarification of their proposals to the Commission to ensure thorough mutual understanding and contractor responsiveness to the solicitation requirements. The Issuing Office will initiate requests for clarification.
I-15. **Best and Final Offers.** To obtain best and final offers from contractors whose proposals are determined by the Commission, in its sole discretion, to be reasonably susceptible of being selected for award, the Commission may (a) enter into discussions; (b) schedule oral presentations; and (c) request revised proposals.

I-16. **Prime Contractor Responsibilities.** The selected contractor will be required to assume responsibility for all services offered in its proposal whether or not it produces them. Further, the Commission will consider the selected contractor to be the sole point of contact with regard to contractual matters.

I-17. **Proposal Contents.** Proposals will be held in confidence and will not be revealed or discussed with competitors, unless disclosure is required to be made (i) under the provisions of any Commonwealth or United States statute or regulation; or (ii) by rule or order of any court of competent jurisdiction. If a contract is executed, however, the successful proposal submitted in response to this RFP shall be subject to disclosure. All material submitted with the proposal becomes the property of the Pennsylvania Turnpike Commission and may be returned only at the Commission’s option. Proposals submitted to the Commission may be reviewed and evaluated by any person other than competing contractors at the discretion of the Commission. The Commission has the right to use any or all ideas presented in any proposal. Selection or rejection of the proposal does not affect this right.

I-18. **Debriefing Conferences.** Contractors whose proposals are not selected will be notified of the name of the selected contractor and will be given the opportunity to be debriefed, at the Contractor’s request. The Issuing Office will schedule the time and location of the debriefing. The contractor will not be compared with other contractors, other than the position of its proposal in relation to all other proposals for each criterion for selection.

I-19. **News Releases.** News releases pertaining to this project will not be made without prior Commission approval, and then only in coordination with the Issuing Office.

I-20. **Commission Participation.** Unless specifically noted in this section, contractors must provide all services to complete the identified work. The Contractor shall provide qualified staffing and maintain maximum continuity during the term of the Agreement for these services.

I-21. **Cost Submittal.** The cost submittal shall be placed in a separately sealed envelope within the sealed proposal and kept separate from the technical submittal. **Failure to meet this requirement may result in disqualification of the proposal.**

I-22. **Term of Contract.** The term of the contract will commence on the Effective Date by the Commission and expire on December 31, 2009. The Commission shall fix the Effective Date after the contract has been fully executed by the Contractor and by the Commission and all approvals required by Commission contracting procedures have been obtained.

I-23. **Contractor’s Representations and Authorizations.** Each contractor by submitting its proposal understands, represents, and acknowledges that:

a. All information provided by, and representations made by, the contractor in the proposal are material and important and will be relied upon by the Issuing Office in awarding the contract(s). Any misstatement shall be treated as fraudulent concealment from the
Issuing Office of the true facts relating to the submission of this proposal. A misrepresentation shall be punishable under 18 Pa. C.S. 4904.

b. The price(s) and amount of this proposal have been arrived at independently and without consultation, communication or agreement with any other contractor or potential contractor.

c. Neither the price(s) nor the amount of the proposal, and neither the approximate price(s) nor the approximate amount of this proposal, have been disclosed to any other firm or person who is a contractor or potential contractor, and they will not be disclosed on or before the proposal submission deadline specified in the cover letter to this RFP.

d. No attempt has been made or will be made to induce any firm or person to refrain from submitting a proposal on this contract, or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal or other form of complementary proposal.

e. The proposal is made in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary or other noncompetitive proposal.

f. To the best knowledge of the person signing the proposal for the contractor, the contractor, its affiliates, subsidiaries, officers, directors, and employees are not currently under investigation by any governmental agency and have not in the last four (4) years been convicted or found liable for any act prohibited by State or Federal law in any jurisdiction, involving conspiracy or collusion with respect to bidding or proposing on any public contract, except as disclosed by the contractor in its proposal.

g. To the best knowledge of the person signing the proposal for the contractor and except as otherwise disclosed by the contractor in its proposal, the contractor has no outstanding, delinquent obligations to the Commonwealth including, but not limited to, any state tax liability not being contested on appeal or other obligation of the contractor that is owed to the Commonwealth.

h. The contractor is not currently under suspension or debarment by the Commonwealth, or any other state, or the federal government, and if the contractor cannot certify, then it shall submit along with the proposal a written explanation of why such certification cannot be made.

i. The contractor has not, under separate contract with the Issuing Office, made any recommendations to the Issuing Office concerning the need for the services described in the proposal or the specifications for the services described in the proposal.

j. Each contractor, by submitting its proposal, authorizes all Commonwealth agencies to release to the Commission information related to liabilities to the Commonwealth including, but not limited to, taxes, unemployment compensation, and workers’ compensation liabilities.
PART II

INFORMATION REQUIRED FROM CONTRACTORS

Contractor proposals must be submitted in the format, including heading descriptions, outlined below. To be considered, the proposal must respond to all requirements in this part of the RFP. Any other information thought to be relevant, but not applicable to the enumerated categories, should be provided as an appendix to the proposal. Each proposal shall consist of two (2) separately sealed submittals. The submittals are as follows: (i) Technical Submittal, in response to Sections II-1 through II-[] hereof; (ii) Cost Submittal, in response to Section II-[] hereof.

The Commission reserves the right to request additional information which, in the Commission’s opinion, is necessary to assure that the contractor’s competence, number of qualified employees, business organization, and financial resources are adequate to perform according to the contract.

The Commission may make such investigations as deemed necessary to determine the ability of the contractor to perform the work, and the contractor shall furnish to the Commission all such information and data for this purpose as requested by the Commission. The Commission reserves the right to reject any proposal if the evidence submitted by, or investigation of, such contractor fails to satisfy the Commission that such contractor is properly qualified to carry out the obligations of the agreement and to complete the work specified.

II-2. Management Summary. Include a narrative description of the proposed effort and a list of the items to be delivered or services to be provided.

II-7. Objections and Additions to Standard Contract Terms and Conditions. Contractor will identify which, if any, of the terms and conditions contained in Appendix A it objects to and what additional terms and conditions contractor requires. Contractor’s failure to object or to request additions will result in its waiving its right to do so later, but the Commission may consider late objections and additional requests if it is in the best interest of the Commission to do so.

II-8. MWDBE/SERB Participation. Prime Contractors are encouraged to utilize SERB vendor participation in their proposed solution. The Commission, however, will not be applying any additional advantage to contractors who submit proposals, who are either qualified SERB vendors or who utilize a SERB vendor as a subcontractor for this RFP.

If further information is desired concerning DBE/MBE/WBE participation, direct inquiries to the Pennsylvania Turnpike Commission’s Contract Administration Department by calling (717) 939-9551 Ext. 4241.

Only work satisfactorily performed after execution of a written contract, after the contractor’s receipt of a notice to proceed from the Commission and after the contract term has begun will be reimbursed.
PART III

CRITERIA FOR SELECTION

III-1. Mandatory Responsiveness Requirements. To be eligible for selection, a proposal should be (a) timely received from a contractor; (b) properly signed by the contractor; and (c) formatted such that all cost data is kept separate from and not included in the Technical Submittal.

III-2. Proposals will be reviewed and evaluated by a committee of qualified personnel selected by the Commission. This committee will recommend for selection the proposal that most closely meets the requirements of the RFP and satisfies Commission needs. Award will only be made to a contractor determined to be responsible in accordance with Commonwealth Management Directive 215.9, Contractor Responsibility Program.

III-3. The following areas of consideration will be used in making the selection:

   a. Understanding the Problem. This refers to the contractor’s understanding of the Commission needs that generated the RFP, of the Commission’s objectives in asking for the services or undertaking the study, and of the nature and scope of the work involved.

   b. Contractor Qualifications. This refers to the ability of the contractor to meet the terms of the RFP, especially the time constraint and the quality, relevancy, and recency of studies and projects completed by the contractor. This also includes the contractor’s financial ability to undertake a project of this size.

   c. Personnel Qualifications. This refers to the competence of professional personnel who would be assigned to the job by the contractor. Qualifications of professional personnel will be measured by experience and education, with particular reference to experience on studies/services similar to that described in the RFP. Particular emphasis is placed on the qualifications of the project manager.

   d. Soundness of Approach. Emphasis here is on the techniques for collecting and analyzing data, sequence and relationships of major steps, and methods for managing the study/service. Of equal importance is whether the technical approach is completely responsive to all written specifications and requirements contained in the RFP and if it appears to meet Commission objectives.

   e. Available Facilities. List the facility(ies) the Contractor will be performing the work for the Commission.

   f. Cost. While this area may be weighted heavily, it will not normally be the deciding factor in the selection process. The Commission reserves the right to select a proposal based upon all the factors listed above, and will not necessarily choose the firm offering the best price. The Commission will select the firm with the proposal that best meets its needs, at the sole discretion of the Commission.
IV-1. Objectives.

a. General. The Contractor shall provide the available resources to effectively review the Commission’s current self-insured exposures and funding levels, as well as the exposures the Commission insures (property and owner-controlled insurance program), and includes reviewing the self-insured losses to determine if the reserves are adequate.

The Contractor would review all insurance policies produced, or any self-insurance program for the Commission, to determine that they are actuarially sound. Based upon this review, the Commission may elect to terminate self-insurance of a given type and based upon the Contractor’s review, the Commission shall obtain and maintain comparable commercial insurance.

The Contractor shall also provide other insurance consultation as it relates to any and all operations of the Commission in properly advising limits of insurance coverage, specifications and review for areas of, but not limited to; construction contracts, purchase orders, utility crossing agreements, and any other area of liability that may affect the operations of the Commission.

In accordance with the requirements of the Amended and Restated Indenture (the "Indenture"), dated March 1, 2001, the Contractor shall also include the review of the Commission’s current insurance policies, financial statements (past and present), loss information (historical and current) for insured and self-insured programs, and a review the current balance of Pennsylvania’s self-insured reserve fund, for fiscal year June 1, 2006 through May 31, 2007, and subsequent fiscal years ending on May 31, 2008 and May 31, 2009.

The Contractor upon completion of their review, will present to the Commission a detailed report on the current status of all insurance policies, self-insured programs, and provide a certification letter to the Commission outlining their findings, recommendations and overview of the insurance policies and self-insured programs as required by the Indenture.

b. Specific. The Contractor shall provide the available resources to effectively review the Commission’s current self-insured exposures and funding levels, as well as the exposures the Commission insures (property and owner-controlled insurance program), and includes reviewing the self-insured losses to determine if the reserves are adequate.

The Contractor would review all insurance policies produced, or any self-insurance program for the Commission, to determine that they are actuarially sound.
