The firm will be required to perform preliminary and final design, including but not limited to the following engineering design tasks and services: project management, field surveys; plotting topography and cross sections; preparation of bridge replacement alternatives report; utility verification and relocation engineering; right-of-way investigation and plans; field view meetings; erosion control details and narrative; Design Field View Submission and Type, Size, and Location Report; soil and foundation engineering reports; roadway plans; structure plans; traffic control plans and narrative; various project permits; construction plans, specifications and estimates.

All subsurface borings and environmental work except erosion and sedimentation control will be performed through the Commission's Open-End Drilling and Environmental Contracts.

The construction contract is currently programmed for an estimated construction cost of \$2,500,000.00.

The Commission will consider the following factors during the evaluation of the firms submitting Letters of Interest for this project:

- a. Specialized experience and technical competence of prime consultant and subconsultants. The Team must clearly demonstrate an ability to analyze available data to make decisions and develop plans to complete the project in a timely and cost effective manner.
- b. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on similar projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project, and the client.
- c. The specific experience and number of individuals who constitute the firm.
- d. Workload of the prime consultant and subconsultants for all Pennsylvania Department of Transportation and Pennsylvania Turnpike Commission projects.

- e. Other factors, if any, specific to the project.

Address these items and any necessary further details in a brief yet comprehensive manner in the Statement of Interest.

Questions and inquiries concerning this project should be directed to Mr. Mark Raup, P.E., at 717-939-9551, extension 2002, or by e-mail at mraup@paturnpike.com. Direct contractual questions to Mr. Donald S. Klingensmith at (717) 939-9551, extension 5850 or by e-mail at dklingen@paturnpike.com.
