All facilities must meet the following:

- Clean, modern, secure facility.
- Customer waiting area and restrooms.
- Provide 24/7 response to all incidents on Commission property/roadway.
- Accept major credit cards for payment (MasterCard and Visa).
- Honor a number of roadside assistance club memberships.
- Meet specific insurance requirements as specified in section I-4. Insurance.

I-3. Compensation

Maximum Charges: Vendor agrees that no charge for towing, repairs or other services shall be in excess of competitive charges prevailing in the area for such services. It is the intention of the Commission to cause the services specified to be rendered to the public making use of the Turnpike at

prices no higher than would be charged for similar services on public roads in the area. Road service compensation shall be in addition to charges for parts and materials. **There shall be no road service charge where there is a towing charge.**

(A) **Road Services:**

Road Service for vehicles up to 10,000-lbs. Gross weight, the flat charge to the motorist shall be Sixty Dollars (\$60.00). Vehicles from 10,001 lbs. To 25,000-lbs. Gross weight, the flat rate charge to the motorist shall be Eighty-Four Dollars (\$84.00). For vehicles over 25,000 lbs. Gross weight, the flat rate charge to the motorist shall be One-hundred Twenty Dollars (\$120.00). This charge shall be a once only compensation charge by the Vendor for mileage traveled on the Turnpike by the service truck in reaching point of service and shall include any or all of the following: providing water; providing fuel; battery jump; a tire change, provided a properly installed spare is available within the vehicle; replacing belts or hoses; or the first fifteen (15) minutes spent toward providing services other than those listed above. If it takes the Vendor more than fifteen (15) minutes to render a non-listed service, the Vendor may charge, in addition to the Road Service charge, an additional labor charge calculated at the prevailing competitive hourly rate, and is not to exceed that normally charged by Vendor for off-Turnpike work. Labor time for repairs on a disabled vehicle shall not exceed that normally charged by Vendor for off-Turnpike work or time as given in Chilton's Flat Rate and Parts Manual, or Motor Parts & Time Guide for both domestic and imported vehicles or in the Flat Rate Schedule issued by the manufacturer of the particular vehicle. In the event of a dispute over the prescribed labor time, the Chilton Manual or Motor Manual will be considered the final authority.

When a motorist is without funds, the Commission shall pay Vendor the sum of Ninety Dollars (\$90.00) for each such vehicle. When a vehicle is gone upon arrival or the service call is cancelled, the Commission shall pay Vendor the sum of Twenty-four Dollars (\$24.00).

(B) **Towing Services:**

- (1) Vehicles up to 10,000 lbs. Gross weight, the charge shall be a flat rate of Seventy-two Dollars (\$72.00) for a service charge (hook-up), and Three and 50/100 Dollars (\$3.50) per mile for each traveled mile.
- (2) Vehicles from 10,001 lbs. to 25,000 lbs. Gross weight, the charge shall be a flat rate of One Hundred Thirty-two Dollars (\$132.00) for a service charge (hook-up), and Four Dollars (\$4.00) per mile for each traveled mile.
- (3) Vehicles over 25,001 lbs. Gross weight, the charge shall be a flat rate of Two Hundred four Dollars (\$204.00) for a service charge (hook-up), and Five Dollars (\$5.00) per mile for each traveled mile.
- (4) The charges for (1) through (3) above, shall include towing from the point of breakdown to the Vendor's exit interchange or to any other service facility in the vicinity of Vendor or to the next interchange in the same (customer's) direction of

travel. When the operator of a vehicle elects to be towed to a destination beyond the vicinity of the Vendor, the Vendor may apply an additional towing charge in accordance with prevailing rates. The Vendor is required to inform each customer of additional towing charges to be made before services are rendered.

- (C) When a vehicle is certified by Pennsylvania State Police as abandoned, the Vendor shall remove it from the Turnpike. For each such vehicle removed, the Commission shall pay Vendor the sum of Ninety Dollars (\$90.00). This fee does not preclude the Vendor from charging the patron additional fees involved in removing said vehicle from the roadway. It is understood and agreed that this is the maximum sum to be paid to the Vendor by the Commission for each said vehicle irrespective of whether or not Vendor eventually incurs any costs in storage, sale or disposal of said vehicle.
- (D) When the Pennsylvania State Police deem a vehicle as impeding traffic flow or by an official of the Commission, it will be moved by the Vendor to the next safest wide area, away from the flow of traffic on the system. For each such vehicle so removed, the Commission shall pay Vendor the sum of Ninety Dollars (\$90.00) for all classes of vehicles. It is understood and agreed that this is the maximum sum to be paid to the Vendor by the Commission for each said vehicle impeding the flow of Vendor traffic where no customer is apparently present with the vehicle.
- (E) The Vendor will also tow any vehicle, which the Pennsylvania State Police request to be towed relative to an investigation.
- (F) The Vendor may charge an additional fee at prevailing competitive hourly rates for time spent in excess of fifteen (15) minutes from arrival time, in righting an overturned vehicle, removed of parts to permit proper towing, use of cutting torch or other special tools and transferring of material from one vehicle to another.
- (G) If the Vendor sublets additional crane and/or recovery vehicle services, the fee charged to the customer shall be no more than the schedule of rates as noted in this agreement.
- (H) The Commission reserves the right to periodically review rates charged by the Vendor. Failure by the Vendor to adhere to the requirements and standards set forth in Section I-3 Compensation may, at the Commission's discretion be considered a breach of this agreement and grounds for its termination.
- (I) The Vendor agrees that the Commission may set off the amount of any state tax liability or other obligation of the Vendor or its subsidiaries to the Commonwealth against any payments due the Vendor under any contract with the Commission.

I-4. Insurance

General: Before the execution of a contract, Vendor must provide the Commission with certificates of insurance evidencing the coverage required acceptable to the Commission, as described below. Have all policies endorsed to contain the following clause: "Thirty (30) days written notice of any cancellation, non-renewal, limit or coverage reduction is to be sent to the Commission by Certified Mail." The preceding is subject to existing Commonwealth of Pennsylvania statutory cancellation provisions relating to non-payment of premium and misrepresentation by the insured. Maintain the

insurance described herein for the entire duration of the Contract. - b) Vendor shall not have a Self-Insured Retention (SIR) on any policy greater than \$25,000, which is the responsibility of the Vendor. If Vendor's policy(ies) has a Self-Insured Retention exceeding this amount, approval must be received from the Commission prior to starting work. In the event any policy includes an SIR, the Vendor is responsible for payment within the SIR of their policy(ies) and the Additional Insured requirements specified herein shall be offered within the SIR amount(s).

 - i. The retroactive date must be on or prior to the start of work under this contract; and
 - ii. The Vendor must purchase "tail coverage/an extended reporting period" or maintain coverage for a period of three years, subsequent to the completion of their work / final payment.
- d) Waiver of Rights of Subrogation: Vendor shall waive all rights of recovery against the Commission and all the additional insureds for loss or damage covered by any of the insurance maintained by the Vendor.
- e) The amount of insurance provided in the aforementioned insurance coverages, shall not be construed to be a limitation of the liability on the part of the Vendor.
- f) The carrying of insurance described shall in no way be interpreted as relieving the Vendor of any responsibility or liability under the contract.
- g) Any type of insurance or any increase in limits of liability not described above which the Vendor requires for its own protection or on account of statute shall be its own responsibility and at its own expense.
- h) Vendor shall promptly notify the Commission and the appropriate insurance company(ies) in writing of any accident(s) as well as any claim, suit or process received by the insured Vendor arising in the course of operations under the contract. The Vendor shall forward such documents received to his insurance company(ies), as soon as practicable, or as required by its insurance policy(ies).

II-3. Proposal Contents

Applications will be held in confidence and will not be revealed or discussed with competitors, unless disclosure is required to be made (i) under the provisions of any Commonwealth or United States statute or regulation; or (ii) by rule or order of any court of competent jurisdiction. All material submitted with the application becomes the property of the Pennsylvania Turnpike Commission and may be returned only at the Commission's option. Applications submitted to the Commission may be reviewed and evaluated by any person other than competing Vendors at the discretion of the Commission. The Commission has the right to use any or all ideas presented in any application. Selection or rejection of the application does not affect this right.

In accordance with the Pennsylvania Right-to-Know Law (RTKL), 65 P.S. § 67.707 (Production of Certain Records), Vendors shall identify any and all portions of their Application that contains confidential proprietary information or is protected by a trade secret. Applications shall include a written statement signed by a representative of the company/firm identifying the specific portion(s) of the Application that contains the trade secret or confidential proprietary information.

Vendors should note that "trade secrets" and "confidential proprietary information" are exempt from access under Section 708(b)(11) of the RTKL. Section 102 defines both "trade secrets" and "confidential proprietary information" as follows:

Confidential proprietary information: Commercial or financial information received by an agency: (1) which is privileged or confidential; **and** (2) the disclosure of which would cause substantial harm to the competitive position of the person that submitted the information.

Trade secret: Information, including a formula, drawing, pattern, compilation, including a customer list, program, device, method, technique or process that: (1) derives independent economic value, actual or potential, from not being generally known to and not being readily ascertainable by

proper means by other persons who can obtain economic value from its disclosure or use; **and** (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy. The term includes data processing software by an agency under a licensing agreement prohibiting disclosure.

65 P.S. §67.102 (emphasis added).

The Office of Open Records has determined that a third party must establish a trade secret based upon factors established by the appellate courts, which include the following:

- the extent to which the information is known outside of his business;
- the extent to which the information is known by employees and others in the business;
- the extent of measures taken to guard the secrecy of the information;
- the value of the information to his business and to competitors;
- the amount of effort or money expended in developing the information; and
- the ease of difficulty with which the information could be properly acquired or duplicated by others.

See Crum v. Bridgestone/Firestone North Amer. Tire., 907 A.2d 578, 585 (Pa. Super. 2006).

The Office of Open Records also notes that with regard to “confidential proprietary information the standard is equally high and may only be established when the party asserting protection shows that the information at issue is either ‘commercial’ or ‘financial’ and is privileged or confidential, and the disclosure *would* cause substantial competitive harm.” (emphasis in original).

For more information regarding the RTKL, visit the Office of Open Records’ website at www.openrecords.state.pa.us.

Each Vendor by submitting its application understands, represents, and acknowledges that:

- e. The Vendor is not currently under suspension or debarment by the Commonwealth, or any other state, or the federal government, and if the Vendor cannot certify, then it shall submit along with the proposal a written explanation of why such certification cannot be made.
- f. The Vendor has not, under separate contract with the Issuing Office, made any recommendations to the Issuing Office concerning the need for the services described in the application or the specifications for the services described in the application.
- g. Each Vendor, by submitting its application, authorizes all Commonwealth agencies to release to the Commission information related to liabilities to the Commonwealth including, but not limited to, taxes, unemployment compensation, and workers' compensation liabilities.
