PA Turnpike TOLL BY PLATE FOR CUSTOMERS WITHOUT E-ZPASS

As part of its cashless tolling program, the Pennsylvania Turnpike Commission (PTC) has established PA Turnpike TOLL BY PLATE. The TOLL BY PLATE program is a license plate tolling system. Customers without E-ZPass will pass through existing toll facilities at the posted speed. Cameras will capture a photo of the license plate and the registered owner of the vehicle will receive a toll invoice in the mail. E-ZPass customers will experience no change to how their tolls are assessed. A current list of cashless tolling points is on our website at www.nocashzone.com.

Customers may opt to open an account for their vehicle under the TOLL BY PLATE program for the convenience of viewing transactions online prior to receiving an invoice by mail. An account also makes it easier to pay when using a leased, rented or company-owned vehicle. An account can be created prior to traveling or up to 24 hours after travel.

FREQUENTLY ASKED QUESTIONS:

• How do I sign up for an account? – You have two options:
  Go to the Paying With TOLL BY PLATE page on the PA Turnpike website (www.paturnpike.com) or call the PTC Customer Service Center (CSC) at the number provided below.

• What payment options are available? – Tolls may be paid online, by phone, and through the mail using check, money order, or credit card. Cash payments are only accepted at the CSC Harrisburg. More details are included on the invoice.

• I have E-ZPass already. Will I also get a TOLL BY PLATE invoice if I travel through a cashless tolling point? – No. PA Turnpike TOLL BY PLATE is only for customers without a valid E-ZPass account. E-ZPass customers will continue to pay for tolls as they do today as long as the account is in good standing and the transponder is properly mounted.

CSC representatives are available five days a week to answer your account-related TOLL BY PLATE questions as noted below.
