Shopping Choices

Seasonal Farmers Market
Delicious locally-grown seasonal fruits, vegetables and more. (April - November)

Fuel Choices

Sunoco and A-Plus Convenience Store
Sunoco, the official fuel of NASCAR, operates all of the fueling stations and convenience stores located at the service plazas. The fueling stations provide diesel fuel and four grades of unleaded gasoline. E-85 fuel is available at the Sideling Hill, Allentown, North Somerset, and Oakmont Service Plazas.

To learn more about Sunoco, Inc., visit www.sunocoinc.com/about-sunoco/

Sunoco's APlus convenience turnpike locations are open 24 hours a day, 7 days a week. At APlus, we take pride in providing a bright, clean store to find everything you need with quick service you would expect from the Official Pit Stop of NASCAR. We offer delicious APlus gourmet coffee at most locations, the best-selling beverages in our cooler (where beverages are chilled to 34 degrees), a wide variety of top-selling candy, packaged sweet snacks, salty snacks, PA Lottery tickets, and many other convenience items for your travel needs. In addition to the Sunoco credit card, most major credit cards are accepted. To learn about the latest promotions and values available at your nearest APlus location, visit www.gosunoco.com

Electric Vehicle Charging Station
The Electric Vehicle Charging Stations are located near the rear of the plaza parking lots - generally behind the service-plaza buildings. A fee is required. Customers pay at the charging station with a credit card. Customers can obtain a free Blink membership at https://www.blinkcharging.com/

Level II stations are installed and ready for customers to use at five turnpike service plazas: Oakmont Plum, New Stanton, Bowmansville, Peter J. Camiel and King of Prussia. Level III EV charging stations are also available at Bowmansville, Peter J. Camiel and King of Prussia.

Compressed Natural Gas Station
Compressed Natural Gas (CNG) is a readily available alternative to gasoline that's made by compressing natural gas to less than 1% of its volume at standard atmospheric pressure. Consisting mostly of methane, CNG is odorless, colorless and tasteless. It's drawn from domestically drilled natural gas wells or in conjunction with crude oil production. A CNG station is installed at the New Stanton service plaza.
Automated External Defibrillator

An automated external defibrillator or AED is a portable electronic device that automatically diagnoses the potentially life threatening cardiac arrhythmias of ventricular fibrillation and ventricular tachycardia in a patient, and is able to treat them through defibrillation, the application of electrical therapy which stops the arrhythmia, allowing the heart to reestablish an effective rhythm.

AEDs are designed to be simple to use for the layman, and the use of AEDs is taught in many first aid, first responder and basic life support (BLS) level CPR classes.

An automated external defibrillator (AED) is available at all Pennsylvania Turnpike service plazas. In an emergency, look for the sign at left to locate the AED.
